Facts come from the Cuyahoga County Fiscal Officer's public parcel data. If something looks wrong, the county's MyPlace site is the authority; you can ask the county to correct its records.

Value and property tax

County market value	\$118,000
Assessed value (35% of market)	\$41,300
Net annual tax (tax year 2024)	\$4,410.55
Effective tax rate	106.50 mills on assessed value (about 3.73% of market value per year)
Homestead reduction on record	No
Value percentile on this street	41th percentile
Value percentile citywide	47th percentile

How to read this: Ohio taxes 35% of the county's market value ("assessed value"). The effective rate is the county's published rate in mills (dollars per \$1,000 of assessed value) after state reductions. The Homestead reduction is a state program for qualifying seniors and disabled homeowners. If you believe the market value is wrong, the Cuyahoga County Board of Revision hears complaints each year (filing window typically January 1 – March 31).

FEMA flood zone

FEMA NFHL zone at the parcel centre	X — Area of minimal flood hazard
-------------------------------------	----------------------------------

Zones beginning with A or V are Special Flood Hazard Areas where lenders usually require flood insurance. Zone X is minimal hazard. Confirm with the official FEMA Map Service Center (msc.fema.gov).

Selling? Point-of-Sale inspection is required in Garfield Heights

Garfield Heights requires a Point-of-Sale inspection before a home is transferred (Codified Ordinances Ch. 1313, as codified through 2020-08-20; verify the current rules with the City at garfieldhts.org). Buyers commonly assume responsibility for open violations through an escrow. Contact the City's Building Department for the current fee, forms and timeline.
